

Help improve our care and services

Delivery of compassionate care to our communities

Anyone can join the Mercy Health Consumer Register.

You might be a current or past patient, resident or client. Or you might be a family member, friend, carer or member of the local community. We value what you have to say.

How can you help?

Consumer advisors are important. They bring a different perspective to our care and services, and help us identify how we can improve the care we provide.

Here are some of the things you might do as a consumer advisor:

- Review information
- Participate in a committee or advisory group
- Help our staff with projects and improvements
- Review organisational plans and strategies
- Complete surveys
- Share your stories

Best of all, you can get involved in person or remotely, and you can decide how much time you can commit.

A warm welcome

We welcome people of all ages, experiences, disability, sexuality or gender identity. We also welcome people from Aboriginal and Torres Strait Islander communities, and diverse cultural or religious backgrounds.

We would like to hear from you. Please contact us, on the below email, to express your interest in joining the Mercy Health Consumer Register.
